MULTI CASH AUTOMATION GMBH
... simple but perfect

SideCar basic and SideCar basic plus

Coin-in and coin-out module

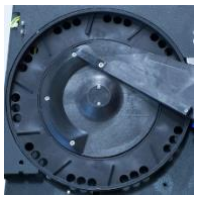
SideCar basic and SideCar basic plus are solutions to extend self-service devices as ATM, Cash Recycler or Cash Dispenser under XFS with additional Coin Deposit and optionally even with coin dispensing functionality. The Coin Deposit solution is available with different coin bin solutions. Optionally the devices can be equipped with a very quick Coin Dispenser for up to 4 denominations (SideCar basic) or even with up to 8 denominations (SideCar basic plus). Housing may be mechanically adapted to the host device. Innovative materials in industrial quality for coin-disk and coin-path ensure high counting speed but a low noise level.

Verified Sensor · Mix Counter · Self Service · Staff Operated

Flexible use

- Coin tray unit (optionally lockable)
- Pre-cleaning due to intelligent dirt-separators
- Blockage-checker separates and rejects foreign objects automatically
- Keyboard-panel for supervisor-operation (optional)
- Parallel dispense of coin hoppers
- Dispensing speed up to 40 coins / sec.

Combination with TCR



Low noise coin disk with cleaning-holes

Coin-tray

Easy integration with varying functions

- XFS protocol for communication with ATM, TCD or TCD
- Multi-coin-bin solution for 2 or 4 bins (optional)
- Electronic journal for download of statistical data and technical information
- All modules highly accessible
- Separated coin compartment made of 3mm steel sheet
- Illuminated output tray for rejected coins

Blockage-checker

Easy to access

Dispensing hoppers

Modular coin-detection system in its 4th generation

- Magnetic sensor for coin alloy
- Capacitive sensor of coin-mass
- Matrix-sensor of coin-profile
- CCD diameter sensor with 256px resolution (optional)
